## PROFILE

I am a dependable and adaptable professional recognised for my ability to maintain **composure** in high-pressure situations and effectively manage time. Proficient in **IT**, I leverage technology to optimise **productivity**. Whether collaborating within a team or independently, I prioritise **efficiency** and **precision** in achieving objectives. My strong teamwork and communication skills contribute to a cohesive work environment conducive to success. Additionally, I am a hardworking **illustrator** and graphic designer with experience across various mediums including board games, video games, and comics, having contributed to multiple projects.

## EXPERIENCE

### Data Entry Admin/ Photographer, Go Thrift, Blackburn — 2022-Present

In my role as a **Data Entry Administrator** at Go Thrift, a premier online thrift brand honoured with the prestigious 2021 **eBay Sustainability Award**, I undertook hands-on responsibilities, such as meticulously inspecting items for defects and proficiently listing them through our customised **Excel**-based system. This roll also had me taking pictures for the website using a dual camera setup which was tethered to **Adobe lightroom**. One camera mounted for a fixed position photo and one handheld camera for creative angles and focal points.

### Host, Hard Rock Cafe, Manchester & London — 2017-2022

My time at Hard Rock Cafe began at the first ever Hard Rock established at Hyde Park in 1971. I worked my way up from a Table Busser to a Host and quickly became a **certified trainer** in my role. This then lead me to help in the training of new staff and the subsequent grand opening of their newest flagship restaurant in London Piccadilly Circus. Here I took part in the training of over **150 staff members** for one of the largest and busiest restaurants in the centre of one of the busiest cities in the world.

Once the restaurant open and my department was running smoothly without problems, I then transferred to the Manchester site where I continued my roll as a certified trainer in the Host and retail department, before leaving in 2022 after **5 years with the company**.
