## Core Skills

---

Predictive Modelling	Microsoft Office (Advanced Excel)	Project Management
Statistical Analysis	SQL	PowerBI/DAX
Tableau	AB Testing	Power Apps

## Personal Profile

---

I'm a methodical and innovative Data Analyst with 4 years' experience in advanced Excel, data management and data visualisation.

I have skill in data interpretation and analysis, as well as the production of reports.

I'm a good communicator with strong people skills, happy to interact with clients and senior stakeholders.

My attention to detail and ability to understand business requirements set me apart from other data analysts.

## Work Experience

---

### January 2022 – Present

Company: **Ignite, a Verisk Business** (Manchester)
