

Martha Ball

A highly skilled data analyst with experience in FinTech and Insurance industries.
Experienced in multiple analytics tools including PowerBI, Python, R Studio, Excel, and SQL.

EXPERIENCE

GRAYCE:

- Beazley Insurance, Manchester — Data Analyst

MAY 2023 - PRESENT

Working with stakeholders and developers to build and maintain PowerBI dashboards and excel reports utilising SQL, JIRA, and Agile practices.

Automating reporting processes using Alteryx and R Studio to reduce single user dependencies in the company.

Building a comprehensive documentation repository using confluence.

Maintaining the data management ServiceNow system.

- Worldremit, London — Data Analyst

OCTOBER 2021 - DECEMBER 2022

Co-managed a large project focused on recovering funds from retired clients, enabling funds in excess of £64,000 to be recovered. Redesigned the process, communicating regularly with c-suite executives.

Enabled quality collection of large quantities of financial data by ensuring no data was missed using excel macros and pivot tables.

Liaised with correspondents to improve their data quality making use agile methodologies, including acting as a key point of contact.

Grayce (internal), Hybrid — Data+ Development programme

SEPTEMBER 2021 - PRESENT

Managed a team of analysts, leading the daily stand-ups and assigning tasks.

Designed sharepoint pages and completed ad-hoc data visualisation requests

Communications lead of the Sustainability initiative - managing a team to prepare a monthly infographic and newsletter, as well as organising and running company sustainability events.
