2 Winster place, Blackpool, Lancashire, FY4 4SJ

Profile

I am a highly motivated and results oriented accounting and finance professional, with over 6 years' experience in a fast-paced corporate environment- growing from £500k to £10m+ annual revenue. Skilled in many aspects of accounting, including financial reporting, budgeting & financial analysis. I have proven ability to maintain accurate financial records and identify opportunities for cost savings.

In addition to accounting & finance, I have self-funded a prince2 project management foundation course, where I have gained knowledge on management and leadership. These skills can be applied to a leading role in accounting, and I look to complete my ACCA qualification to progress and excel.

Experience

Other Achievements
Led multiple subsidiaries on implementation of a new accounting software, which increased efficiency by reducing financial errors

Saved £5000+ annually through company credit card management.

Knowledgeable crypto trader

Determination helped me achieve a black belt in kick-boxing

Summary

I am a highly driven individual, focusing on progressing in my area of expertise of accounting & finance and believe I have an adaptable skill set in order to do so successfully. The problem solving, budgeting, communication skills and building excellent rapport with colleagues/clients has really developed my interpersonal skills. I am ready to progress into a leadership role with my experience and skill set that makes me a well-rounded individual. My employer Ellab had an internal restructure after relocating the office, which made the job unsuitable due to an extensive commute distance to the new office. This has led me to seek a new role closer to home and to push myself for progression.

Thank you for taking the time to consider my CV.
