SIEM Tools   - SPLUNK.
Digital Forensics Tool - Autopsy, FTK Imager, Sleuth Kit.
Penetration Testing   - Snort, Metasploit, Wireshark, MSF Venom, Nmap, Zphisher, Sendemail etc.
Others   - T2 Triage Tool, Cisco Packet Tracer, PE Studio, Process Monitor, VirusTotal.

ADDITIONAL KNOWLEDGE

- Sound knowledge of ISO 27001, PCI-DSS, NIST, Risk Management.
- Fundamental understanding of Malware Analysis

CERTIFICATION's

TITLE	Credential No.
CompTIA Security+ valid until *June 25th, 2025*	**COMP001022075633**
Splunk SIEM Security	**31679-142382-93232**
Network Security Associate NSE-1 by Fortinet	**v1ZtVJeli**
Security Certified Network Specialist (CNSS) by ICSI (UK)	**20846411**
Splunk 7.x Fundamentals issued by Splunk	**E-Learning**

EXPERIENCE

Virtual Employee Pvt. Ltd.
26th March 2018 to 15th December 2020 (2 years 9 months)
Profile: IT Security Analyst (SOC)

- Conducted Phishing Incident Response activities, including analysis, reporting, threat identification, and remediation.
- Identified Malicious Domains/Web Pages and reported them for suspension, contributing to the overall security posture of the organization.
- Designed and executed successful Anti-Phishing Campaigns for Banking/Financial institutions, resulting in increased security awareness and knowledge.
- Utilized in-house tools to detect and analyze potential Rogue Apps hosted on third-party mobile app stores, escalating findings for further investigation.
- Documented event analysis procedures and produced comprehensive incident investigation reports to support continuous improvement of security practices.
- Reported and facilitated the take-down of payloads and other downloadable files, mitigating potential threats to the organization.
- Successfully trained over 10 new employees on proprietary company systems and tools, ensuring smooth onboarding and effective knowledge transfer.
- Collaborated with Customer Success Managers to provide high-quality services & exceed (SLAs).
- Prepared and delivered monthly reports for clients on the threat landscape, providing valuable insights and recommendations to enhance their security posture.
- Communicated effectively with Internet Service Providers (ISPs) and Registrars worldwide to mitigate fraudulent attacks and protect organizational assets.
  ADDITIONAL EXPERIENCE: Splunk Enterprise Security
- Analyzed security-based events, risks, and reporting instances, utilizing advanced Splunk features to identify and respond to potential threats.
- Correlated events from network Anti-virus, IDS/IPS, Firewalls, and analyzed them for threats, leveraging Splunk Enterprise Security to streamline workflows.
- Performed routine security functions for risk detection, prevention, and response, proactively monitoring security systems and events to detect, investigate, and mitigate threats.
- Monitored security posture and security incidents regarding trending outside-inside threat vectors, identifying patterns and trends to implement proactive measures to enhance security.
